

90 CLEARFIELD MEN ARE IN FIRST DRAFT

CLEARFIELD COUNTY'S QUOTA 431
200 OF THESE ALREADY ENLISTED

**With Credit For Guard and Regular
Army Volunteers District No. 1 Will
Be Asked For Not Over 86 Men**

MORE THAN TWENTY MARRIED MEN

A great deal of speculation is going on concerning the number of men to be furnished from Clearfield county by the first draft. It has been established that the quota for the county will be 431. But this total will include all enlistments in the National Guard and regular army since April 1st, so it is generally understood.

This being the case the total number of men to be selected from those drafted today will be in the neighborhood of 250, as it is conservatively estimated that the voluntary enlistments from the entire county in all branches of army service will easily total two hundred.

The DuBois recruiting office records show that since war was declared against Germany on April 2nd one hundred and twenty-four men from Clearfield county have enlisted in the army through this one recruiting office alone.

Of this number 54 came from District No. 1, a large majority of the number being from Clearfield, while Curwensville was very well represented.

District No. 2, of which DuBois is a part, furnished sixty-one of the one hundred and twenty-four, while District No. 3 supplied but nine. In consequence of these figures District No. 3 will be required to furnish almost their full quota of one hundred and forty-four by this draft.

Of the sixty-one from District No. 2, DuBois claims forty-six, and in addition to this number has some thirty five or forty enlistments in Co. H, of the Sixteenth Regiment at Ridgway, and this number will also be subtracted from District No. 2's quota.

Of the number necessary to make up the total county enlistment of two hundred a large number of these will also be credited to District No. 1 and Clearfield, because while almost all the enlistments to District No. 2 went through the DuBois recruiting office that was not true of our district, we have a number enlisted in Company L of the 18th Regiment, six members of the Boal Machine Gun Company and many other enlistments at Altoona, Pittsburg, Columbus, Fort Slocum direct and other recruiting offices.

While Clearfield of course has sent out a majority of those going from this district, there is no way to determine how many will be taken from this town by reason of the draft, because the District will be taken as a whole and cannot be subdivided into smaller units and the number taken from each precinct will depend of course first upon the number of men actually drafted from the district and then the number of acceptances after the draft is made.

Clearfield young men were not very lucky "in the draw" because at 2:45 o'clock out of the first seven hundred names called, ninety of them hit Clearfielders.

Of this total some eight or ten were Italians, many of whom were aliens, and when these and the number of married men drafted with dependent families are taken into consideration it is going to be pretty hard on the single fellows.

Four of the Clearfielders whose numbers were selected pulled one over on Uncle Sam by enlisting before he sent for them. They are James Harvey Shearer, and Wilber Kerr, of the Fourth Ward, and Hazzard Chase and Theodore Maisch, of the Third Ward. Shearer is in the regular army and is located at Syracuse, N. Y.; Kerr is a member of the Boal Machine Gun Company, Maisch enlisted Tuesday at DuBois, while Chase was rejected at Fort Niagara training camp on account of being under weight.

Following is a list of the numbers in the order drawn up to time of going to press:—

America First Nation To Begin Education of Children About Thrift Lines

New York, July 20.—America will be the first nation in the world to re-write her text books so that the children of this country will be taught thrift in the school room. According to an announcement made today by the Thrift Education committee of the National Education association, radical innovations in the American school curricula are about to take place.

The lives of James J. Hill, Marshall Field, John Wanamaker and other great American business men will be studied in the schools, and text books on arithmetic, history, English composition, domestic science and household economics will be subjected to radical changes. For the first time in the history of the world, thrift and personal efficiency will be given scientific consideration in the class room. Not the narrow thrift of mere money saving but the broader thrift of individual preparedness for practical life will be taught declares the committee's statement.

This is the sweeping significance of the resolutions adopted by the National Council of Education at its meeting in Portland last week. The resolutions were written and presented by S. W. Straus of New York, president of the American society for thrift. They point out that on account of the war America must from now on eliminate waste of every character; that President Wilson's first message to the public after the declaration of war was on thrift; that the only way to safeguard the economic future of the nation is through a better understanding of thrift which can be made possible only through the school-room, and that at the forthcoming meeting of the council of education in Atlanta, Ga., the school organization will be expected to have before it a comprehensive plan for the practical study of thrift in the schools of America.

Secretary of War Baker, Senatorial and
Congressional Committees Draw First
Numbers.---Will Continue All Night

BOB MITCHELL FIRST CLEARFIELDER

By Webb Miller

Room 226, Senate Building, Wash., July 20.—America today drew her youth for war against Kaiserism. Starting at 9:30 in this garish chamber prominent men drew the fateful capsules bearing the numbers. Each number indicated a youth out in the nation. It will be night before the last number will be drawn. This method was necessitated by a change in plans yesterday after it was discovered that state boards had blundered in preparing the lists. It was a solemn scene. Dignitaries witnessed the drawing—only a handful—Secretary of War Baker, General Enoch Crowder, Chief of the Draft, and his aide, Major Johnson and newspaper men were the only witnesses. General Crowder enforces silence. The announcing of the numbers drawn was the only sound. Hour after hour the men worked. The numbers were put on a tally sheet and on a black board.

The first 15,000 numbers drawn, officials said, ought to indicate the good portion of the order in which the men will be called upon for examination in the smaller districts.

On the face of the drawing at two o'clock the lottery will last until two a. m. Saturday. Announcers are getting hoarse and are changing shifts. The number 258 was the first drawn in America's wholesale gamble today. Secretary Baker drew the first number, Chairman Chamberlain of the Senate Military Committee the second, Chairman Dent of the House Military Affairs Committee the third, Senator Warren, ranking Republican member of the Senate Military Affairs committee the fourth, Representative Kahn, ranking Republican member of the House Military Affairs Committee the fifth, Acting Chief General Bliss, the sixth, Provost Marshal General Crowder the seventh, and Adjutant General McClain the eighth. The drawing then formally proceeded after the movie machines had been withdrawn from the room.

Two "War Brides"
In Old Clearfield

Two Young Soldiers Said to Have
Made Life Contracts Before Enlisting

A business man informed us last evening that as a newsgatherer we were more or less (he said considerably more) behind the times, and thereupon proceeded to give us just an inkling of a real news item, which he says is known to but a very select few, two of whom are in the service of your Uncle Samuel and the remainder, not including the Buffalo preacher, live right here in Clearfield. This item of news, as you no doubt have begun to infer, concerns two alleged "war brides" right here in little old Clearfield.

The story goes, and our informant said he was privileged to read the announcement in a Buffalo paper dated some two months ago, that before two of our doughty young warriors doffed the habiliments of peace and donned Uncle Sam's khaki, they sought out their dearest and only and making a pilgrimage to Buffalo, very quietly and with malice aforethought against the newspapers and town gossips, sought out a properly ordained "sky pilot" and entered into a lifetime contract before taking up the burden of assisting in "making the world safe for democracy."

For reasons of their own, romantic and otherwise, the contracting parties agreed to keep their secret, if possible until this cruel war is over, and there you are.

We are now hard at work attempting to ferret out these dainty little "war brides" and we hereby solicit the invaluable assistance of all old maid's debating societies, sewing

QUIET HOME WEDDING

A very pretty home wedding was celebrated at the home of Mr. and Mrs. W. J. Blakely, on Dorsey street, at 6 o'clock yesterday evening. The contracting parties were Miss Jean Blakely and Thomas H. Warren, of Pittsburg. The ceremony was performed by Rev. John C. Collins, of the Eleventh Street Methodist church in the presence of some but the immediate relatives of the contracting parties, owing to the recent death of the groom's mother.

The bride and groom were attended by Mr. and Mrs. John F. Hastings. Following the ceremony a sumptuous wedding dinner was served and following congratulations the happy couple departed for an extended wedding tour, after which they will take up their residence in Pittsburg.

The bride is a charming and accomplished young woman, while the groom, who is a grandson of Mr. and Mrs. John M. Hastings of Cherry street, holds a responsible position in one of Pittsburgh's banks. The Progress joins their host of friends in extending congratulations.

Touch With The Outside WorldU. S. GUN CREW FIGHTS
FROM BLAZING STEAMER

Washington, July 19—Andrew Copassacki, chief boatswain's mate, has earned his place among the select of the United States navy's "greatest fighters." His crisp official report made public here tonight, tells his story.

For three hours he and a gun crew of twelve fought a German submarine from the deck of the steamship Moreau her cargo of gasoline blazing beneath their feet. The battle took place in the Mediterranean off Cape de Palos Spain in the early morning of June 12.

His fight brought cheers from the Germans themselves.

When the blaze aboard the Moreau became too hot to pass ammunition to the after gun, when lifeboats were on fire and the whole ship ablaze, with steaming gear shot away and the ship running in circles, Copassacki and two of his crew fought their way through flames to the forward gun. They drove the submarine back out of range and abandoned the ship only when the firing pin jammed in the last available weapon.

PARDONS SHOW WILSON
IS FOR THE CAUSE

Washington, July 19—"Quite the most unpleasant experience I have ever had, but it is necessary to go back again and remain a longer period in order to impress upon the President the intensity and earnestness of the demand for the immediate passage of the Susan B. Anthony amendment, I am willing to return at once."

That was the spirit, voiced by Mrs. Florence Bayard Hilles, of Wilmington in which the sixteen suffragists sentenced last Tuesday to sixty days in the workhouse at Occoquan for picketing the White House, returned this afternoon to suffrage headquarters.

"We accepted the president's pardon as his recognition of the fact that we had been unjustly convicted and illegally imprisoned, and as an endorsement of the cause in the interest of which we were arrested. If we had not so regarded it and been assured by our counsel that we might so regard it, we should have refused to accept it," said Mrs. Betsy Reynolds, of Detroit. And in reply to a question as to whether in view of the pardon extended by the President, picketing would be discontinued, Mrs. J. A. H. Hopkins, of New Jersey, exclaimed, "What, before the amendment passes? Certainly not."

SHIPS SAFE FROM SUBS
IF THEY GO 20 KNOTS AN HOUR

New York, July 19—Danger from submarines is virtually non-existent if the vessels attacked can attain a speed of 20 knots an hour according to charts displayed at a shipbuilding conference held here today, under the auspices of the chamber of commerce of the state of New York. The figures were shown to lend emphasis to a demand that the ship construction controversy be settled immediately and that the vessels built, either of steel or wood, be so constructed that they can make at least 16 knots an hour.

The chart showed that 100 per cent. of vessels with a speed of five knots or less which have been attacked by submarines have been sunk. The percentage of losses decreased steadily as the speed of the ships increased. At 16 knots an hour the percentage sunk has been about 25.

WORTH TWO
WEEKS TRAINING

Tanlac Quickly and Surely Put H. Mason, Pugilist, in Pink of Condition.

"Tanlac is worth almost as much to me as two weeks' hard training," said H. Mason, athlete and pugilist, of 1306 State street, Erie, Pa.

"I suffered from stomach trouble and a catarrhal affection, the latter having been brought about by my contracting cold after a ten-round bout at the Harlem Athletic Club last Thanksgiving afternoon.

"It seemed as though my nutrition was retarded and my strength was leaving me rapidly.

"I would awaken at night from cold sweats.

"I could not eat with any satisfaction and as a consequence my stomach went completely back on me.

"I bought some of this new medicine, Tanlac, because a friend told me about it, and because he recommended it to me so highly.

"Since using Tanlac my stomach has resumed its normal condition. I eat fine and sleep well. I am as strong as ever; in fact, I feel like I am fit for the battle of my life.

"This Tanlac is certainly a great strength giver. It beats anything I have ever seen. I am going to keep the medicine around handy to take in the future. You certainly can bet on that."

Tanlac is now sold here by Woodward & McPherson.

FOOD CONSERVATION IN
WISCONSIN

Madison, Wis., July 20—A comprehensive plan to prevent any portion of the enormous quantity of fruit and vegetables produced in Wisconsin this season from going to waste has been worked out by the state council of defense and the agricultural extension service of the state college of agriculture. As the initial step in the food conservation campaign the women throughout the state have been urged to devote a part of today to taking an inventory of the cans, jars, cups and bottles around their premises. The women have been urged to save the available canners of every description with a view to utilizing them in storing dried and preserved fruits and vegetables.

Connie Mack Again Coming To Front

Silent Leader Slowly Creating Another Baseball Machine to be Feared

By H. C. Hamilton

(United Press Staff Correspondent)
New York, July 20.—More and more the efforts of Connie Mack, silent leader of the Athletics, are gaining respect among the big leaguers. The prediction made by himself when he began to whittle off the stars with which he had won several world's championships, that he would be back in the race by 1917, has not been realized, but he has succeeded in making the name Philadelphia once more one to be feared in the American league.

Discussing Mack and his newly made move to sign Phil Donovan said that he would rather play almost any club in the league than send his men into a contest against the Mackmen. "They won't win any pennants this year," Donovan commented, "but they're going to fight mighty hard for every game they go into. From this time on they're going to improve. I'm a mighty mistaken student of this national pastime if the Athletics are not found kicking considerable dust around before the end of the 1918 campaign gets here."

Donovan figures—and so does every other baseball manager who has had a glimpse of him—that Ray Bates is one of the finest players the minor leagues have yielded in many a day.

He also believes Witt the equal of any shortstop in the American league, with the possible exception of Roger Peckinpaugh, his own short fielder. Second base is a problem, but McInnis is fully the equal, perhaps the superior of any man doing first base duty.

"There isn't a thing wrong with that outfield of Connie Mack's," Donovan ruefully remarked. "I only wish I had a pair of those birds working for me. I might have a chance to win a pennant before he makes the going so tough."

Where is the manager who wouldn't like to have Bush, Myers and Noyes pitching for him; and where, on where can you find a big leaguer who wouldn't spend several thousand dollars for Wallie Schang?

The foundation has been built for another fine baseball team in Philadelphia. Managers and baseball men everywhere believe it is due.

ON THE SCREEN

San Francisco before the earthquake and fire. The interior of "Sailor's Rest." The proprietor, "Hell" Morgan and his daughter. A conniving politician who coveted the queen of "Sailor's Rest." Thus the stage is set when Roger Curwell, a portrait painter, comes upon the scene—and then the story of "Hell" Morgan's girl gets well under way. Harvey put into novel form and Ida May Park prepared for the screen this thrilling tale of love, cunning and adventure that ends in the Presidio, where thousands have fled following the disaster that appalled the world and laid a wondrous city prostrate for a time. No more thrilling or gripping tale of love's struggle for supremacy has ever been screened and Bluebird Photoplays Inc., have made a master work of the presentation that will be exhibited at the Tent on Saturday night with beautiful Dorothy Phillips playing the queen of "Sailor's Rest," for the love of whom Roger Curwell, artist and man of refinement, sunk to a lower strata, only to rise to the level of the girl he loved and bring her on with him to the fullness of life's best ideals. "Hell Morgan's Girl" pictures in gripping scenes the transition of two souls, passing, as it were, in their flight, to eventually join in the happiness of perfect redemption through love.

See it at the Tent tomorrow night.

90 CLEARFIELD MEN ARE IN FIRST DRAFT

CLEARFIELD COUNTY'S QUOTA 431
200 OF THESE ALREADY ENLISTED

**With Credit For Guard and Regular
Army Volunteers District No. 1 Will
Be Asked For Not Over 86 Men**

MORE THAN TWENTY MARRIED MEN

A great deal of speculation is going on concerning the number of men to be furnished from Clearfield county by the first draft. It has been established that the quota for the county will be 431. But this total will include all enlistments in the National Guard and regular army since April 1st, so it is generally understood.

This being the case the total number of men to be selected from those drafted today will be in the neighborhood of 250, as it is conservatively estimated that the voluntary enlistments from the entire county in all branches of army service will easily total two hundred.

The DuBois recruiting office records show that since war was declared against Germany on April 2nd one hundred and twenty-four men from Clearfield county have enlisted in the army through this one recruiting office alone.

Of this number 54 came from District No. 1, a large majority of the number being from Clearfield, while Curwensville was very well represented.

District No. 2, of which DuBois is a part, furnished sixty-one of the one hundred and twenty-four, while District No. 3 supplied but nine. In consequence of these figures District No. 3 will be required to furnish almost their full quota of one hundred and forty-four by this draft.

Of the sixty-one from District No. 2, DuBois claims forty-six, and in addition to this number has some thirty five or forty enlistments in Co. H, of the Sixteenth Regiment at Ridgway, and this number will also be subtracted from District No. 2's quota.

Of the number necessary to make up the total county enlistment of two hundred a large number of these will also be credited to District No. 1 and Clearfield, because while almost all the enlistments to District No. 2 went through the DuBois recruiting office that was not true of our district, we have a number enlisted in Company L of the 18th Regiment, six members of the Boal Machine Gun Company and many other enlistments at Altoona, Pittsburg, Columbus, Fort Slocum direct and other recruiting offices.

While Clearfield of course has sent out a majority of those going from this district, there is no way to determine how many will be taken from this town by reason of the draft, because the District will be taken as a whole and cannot be subdivided into smaller units and the number taken from each precinct will depend of course first upon the number of men actually drafted from the district and then the number of acceptances after the draft is made.

Clearfield young men were not very lucky "in the draw" because at 2:45 o'clock out of the first seven hundred names called, ninety of them hit Clearfielders.

Of this total some eight or ten were Italians, many of whom were aliens, and when these and the number of married men drafted with dependent families are taken into consideration it is going to be pretty hard on the single fellows.

Four of the Clearfielders whose numbers were selected pulled one over on Uncle Sam by enlisting before he sent for them. They are James Harvey Shearer, and Wilber Kerr, of the Fourth Ward, and Hazzard Chase and Theodore Maisch, of the Third Ward. Shearer is in the regular army and is located at Syracuse, N. Y.; Kerr is a member of the Boal Machine Gun Company, Maisch enlisted Tuesday at DuBois, while Chase was rejected at Fort Niagara training camp on account of being under weight.

Following is a list of the numbers in the order drawn up to time of going to press:—

In Public Schools

America First Nation To Begin Education of Children About Thrift Lines

New York, July 20.—America will be the first nation in the world to rewrite her text books so that the children of this country will be taught thrift in the school room. According to an announcement made today by the Thrift Education committee of the National Education association, radical innovations in the American school curricula are about to take place.

The lives of James J. Hill, Marshall Field, John Wanamaker and other great American business men will be studied in the schools, and text books on arithmetic, history, English composition, domestic science and household economics will be subjected to radical changes. For the first time in the history of the world, thrift and personal efficiency will be given scientific consideration in the class room. Not the narrow thrift of mere money saving but the broader thrift of individual preparedness for practical life will be taught declares the committee's statement.

This is the sweeping significance of the resolutions adopted by the National Council of Education at its meeting in Portland last week. The resolutions were written and presented by S. W. Straus of New York, president of the American society for thrift. They point out that on account of the war America must from now on eliminate waste of every character; that President Wilson's first message to the public after the declaration of war was on thrift; that the only way to safeguard the economic future of the nation is through a better understanding of thrift which can be made possible only through the school-room, and that at the forthcoming meeting of the council of education in Atlanta, Ga., the school organization will be expected to have before it a comprehensive plan for the practical study of thrift in the schools of America.

Secretary of War Baker, Senatorial and
Congressional Committees Draw First
Numbers.---Will Continue All Night

BOB MITCHELL FIRST CLEARFIELDER

By Webb Miller

Room 226, Senate Building, Wash., July 20.—America today drew her youth for war against Kaiserism. Starting at 9:30 in this garish chamber prominent men drew the fateful capsules bearing the numbers. Each number indicated a youth out in the nation. It will be night before the last number will be drawn. This method was necessitated by a change in plans yesterday after it was discovered that state boards had blundered in preparing the lists. It was a solemn scene. Dignitaries witnessed the drawing—only a handful—Secretary of War Baker, General Enoch Crowder, Chief of the Draft, and his aide, Major Johnson and newspaper men were the only witnesses. General Crowder enforces silence. The announcing of the numbers drawn was the only sound. Hour after hour the men worked. The numbers were put on a tally sheet and on a black board.

The first 15,000 numbers drawn, officials said, ought to indicate the good portion of the order in which the men will be called upon for examination in the smaller districts.

On the face of the drawing at two o'clock the lottery will last until two a. m. Saturday. Announcers are getting hoarse and are changing shifts. The number 258 was the first drawn in America's wholesale gamble today. Secretary Baker drew the first number, Chairman Chamberlain of the Senate Military Committee the second, Chairman Dent of the House Military Affairs Committee the third, Senator Warren, ranking Republican member of the Senate Military Affairs committee the fourth, Representative Kahn, ranking Republican member of the House Military Affairs Committee the fifth, Acting Chief General Bliss, the sixth, Provost Marshal General Crowder the seventh, and Adjutant General McClain the eighth. The drawing then formally proceeded after the movie machines had been withdrawn from the room.

Two "War Brides"
In Old Clearfield

Two 4 Young Soldiers. Said to Have
Made Life Contracts Before Enlisting

A business man informed us last evening that as a newsgatherer we were more or less (he said considerably more) behind the times, and thereupon proceeded to give us just an inkling of a real news item, which he says is known to but a very select few, two of whom are in the service of your Uncle Samuel and the remainder, not including the Buffalo preacher, live right here in Clearfield. This item of news, as you no doubt have begun to infer, concerns two alleged "war brides" right here in little old Clearfield.

The story goes, and our informant said he was privileged to read the announcement in a Buffalo paper dated some two months ago, that before two of our doughty young warriors doffed the habiliments of peace and donned Uncle Sam's khaki, they sought out their dearest and only and making a pilgrimage to Buffalo, very quietly and with malice aforethought against the newspapers and town gossips, sought out a properly ordained "sky pilot" and entered into a lifetime contract before taking up the burden of assisting in "making the world safe for democracy."

For reasons of their own, romantic and otherwise, the contracting parties agreed to keep their secret, if possible until this cruel war is over, and there you are.

We are now hard at work attempting to ferret out these dainty little "war brides" and we hereby solicit the invaluable assistance of all old maid's debating societies, sewing

QUIET HOME WEDDING

A very pretty home wedding was celebrated at the home of Mr. and Mrs. W. J. Blakely, on Dorsey street, at 6 o'clock yesterday evening. The contracting parties were Miss Jean Blakely and Thomas H. Warren, of Pittsburgh. The ceremony was performed by Rev. John C. Collins, of the Eleventh Street Methodist church in the presence of some but the immediate relatives of the contracting parties, owing to the recent death of the groom's mother. The bride and groom were attended by Mr. and Mrs. John F. Hastings. Following the ceremony a sumptuous wedding dinner was served and following congratulations the happy couple departed for an extended wedding tour, after which they will take up their residence at Liberty Pittsburgh.

The bride is a charming and accomplished young woman, while the groom, who is a grandson of Mr. and Mrs. John M. Hastings of Cherry street, holds a responsible position in one of Pittsburgh's banks. The Progress joins their host of friends in extending congratulations.

FRIDAY EVENING, JULY 20, 1917.

No. 258 was the first number drawn in the conscription list for the new army of over half a million men. That number is held in this district by Robert Mitchell, a son of Oscar Mitchell, deceased. Robert Mitchell is one of our finest young men and if accepted for service will be an honor to the great body of men who will go to France to "make the world safe for Democracy."

The great human lottery as some have chose to call the draft came near being a veritable "Chinese puzzle" through the plans announced by the War Department late yesterday afternoon. Whoever was responsible for the so-called irregularities which caused the abandonment of the proposed scheme should be commended. There was general condemnation of the proposed method in all quarters last evening.

Today we experience a new thing. Both as to individuals and as a nation. Once before the government of this United States resorted to the conscription method of raising an army but under entirely different circumstances. Today will decide the future of thousands of our young men. Fate will decree whether they go to help "make the world safe for democracy" or whether they stay at home to help support her who goes. It matters not whether we fight with a rifle or with our labor in the next six months, we will all be called upon to make some sacrifices. Some will offer up their lives and some may be called upon to pay but their's will be the greater glory.

After Trying Goldine Treatment Well Known Resident Gets Wonderful Help

Jersey Shore, Pa. John A. Bennett of 515 Main street, a well known resident of this village, has found that Goldine is a wonderful medicine to give strength to elderly people. Mr. Bennett confesses a city delivery.

This is what he says about Goldine: "I suffered all winter long with stomach trouble, and other troubles. I had bloating of the stomach and was constipated and frequently had pains in my stomach. I had a cough and had to spit up mucus. I suffered sometimes with rheumatism in my joints and muscles and I had a lame back; my tongue was coated; I had to get up in the night to pass water, and my ankles, hands and feet would swell up. I had dropsy and was nervous and trembled."

"When I heard that Goldine was sold here I thought I would try it. I have only taken it a short time but already I feel it has given me a lot of strength. It has removed a great many of my symptoms and my stomach is much better. I am now able to walk and much better than I did."

Touch With The Outside WorldU. S. GUN CREW FIGHTS
FROM BLAZING STEAMER

Washington, July 19—Andrew Copassacki, chief boatswain's mate, has earned his place among the select of the United States navy's "greatest fighters." His crisp official report made public here tonight, tells his story.

For three hours he and a gun crew of twelve fought a German submarine from the deck of the steamship Moreau her cargo of gasoline blazing beneath their feet. The battle took place in the Mediterranean off Cape de Palos Spain in the early morning of June 12.

His fight brought cheers from the Germans themselves.

When the blaze aboard the Moreau became too hot to pass ammunition to the after gun, when lifeboats were on fire and the whole ship ablaze, with steaming gear shot away and the ship running in circles, Copassacki and two of his crew fought their way through flames to the forward gun. They drove the submarine back out of range and abandoned the ship only when the firing pin jammed in the last available weapon.

PARDONS SHOW WILSON
IS FOR THE CAUSE

Washington, July 19—"Quite the most unpleasant experience I have ever had, but if it is necessary to go back again and remain a longer period in order to impress upon the President the intensity and earnestness of the demand for the immediate passage of the Susan B. Anthony amendment, I am willing to return at once."

That was the spirit, voiced by Mrs. Florence Bayard Hilles, of Wilmington in which the sixteen suffragists sentenced last Tuesday to sixty days in the workhouse at Occoquan for picketing the White House, returned this afternoon to suffrage headquarters.

"We accepted the president's pardon as his recognition of the fact that we had been unjustly convicted and illegally imprisoned, and as an endorsement of the cause in the interest of which we were arrested. If we had not so regarded it and been assured by our counsel that we might so regard it, we should have refused to accept it," said Mrs. Betsy Reynolds, of Detroit. And in reply to a question as to whether in view of the pardon extended by the President, picketing would be discontinued, Mrs. J. A. H. Hopkins, of New Jersey, exclaimed, "What, before the amendment passes? Certainly not."

SHIPS SAFE FROM SUBS
IF THEY GO 20 KNOTS AN HOUR

New York, July 19—Danger from submarines is virtually non-existent if the vessels attacked can attain a speed of 20 knots an hour according to charts displayed at a shipbuilding conference held here today, under the auspices of the chamber of commerce of the state of New York. The figures were shown to lend emphasis to a demand that the ship construction controversy be settled immediately and that the vessels built, either of steel or wood, be so constructed that they can make at least 16 knots an hour.

The chart showed that 100 per cent. of vessels with a speed of five knots or less which have been attacked by submarines have been sunk. The percentage of losses decreased steadily as the speed of the ships increased. At 16 knots an hour the percentage sunk has been about 25.

WORTH TWO
WEEKS TRAINING

Tanlac Quickly and Surely Put H. Mason, Pugilist, in Pink of Condition.

"Tanlac is worth almost as much to me as two weeks' hard training," said H. Mason, athlete and pugilist, of 1306 State street, Erie, Pa.

"I suffered from stomach trouble and a catarrhal affection, the latter having been brought about by my contracting cold after a ten-round bout at the Harlem Athletic Club last Thanksgiving afternoon.

"It seemed as though my nutrition was retarded and my strength was leaving me rapidly.

"I would awaken at night from cold sweats.

"I could not eat with any satisfaction and as a consequence my stomach went completely back on me.

"I bought some of this new medicine, Tanlac, because a friend told me about it, and because he recommended it to me so highly.

"Since using Tanlac my stomach has resumed its normal condition. I eat fine and sleep well. I am as strong as ever; in fact, I feel like I am fit for the battle of my life.

"This Tanlac is certainly a great strength giver. It beats anything I have ever seen. I am going to keep the medicine around handy to take in the future. You certainly can bet on that."

Tanlac is now sold here by Woodward & McPherson.

Hyattsville, Md., July 20.—The Citizens' Temperance Union has completed preparations for a big mass meeting to be held here tomorrow afternoon to celebrate the signing of the county dry bill to Governor Harrington. The bill passed at the recent special session of the Maryland legislature makes the county bone dry on November 1, and while it was introduced as a war measure the main purpose was to prevent the county from becoming an oasis for thirsty persons living in the nearby dry sections.

Connie Mack Again Coming To Front

Silent Leader Slowly Creating Another Baseball Machine to be Feared

By H. C. Hamilton

(United Press Staff Correspondent)
New York, July 20.—More and more the efforts of Connie Mack, silent leader of the Athletics, are gaining respect among the big leaguers. The prediction made by himself when he began to whittle off the stars with which he had won several world's championships, that he would be back in the race by 1917, has not been realized, but he has succeeded in making the name Philadelphia once more one to be feared in the American league.

Discussing Mack and his newly made move to buy Phil Donovan said that he would rather play almost any club in the league than send his men into a contest against the Mackmen. "They won't win any pennants this year," Donovan commented, "but they're going to fight mighty hard for every game they go into. From this time on they're going to improve. I'm a mighty mistaken student of this national pastime if the Athletics are not found kicking considerable dust around before the end of the 1918 campaign gets here."

Donovan figures—and so does every other baseball manager who has had a glimpse of him—that Ray Bates is one of the finest players the minor leagues have yielded in many a day.

He also believes Witt the equal of any shortstop in the American league, with the possible exception of Roger Peckinpaugh, his own short fielder. Second base is a problem, but McInnis is fully the equal, perhaps the superior of any man doing first base duty.

"There isn't a thing wrong with that outfield of Connie Mack's," Donovan ruefully remarked. "I only wish I had a pair of those birds working for me. I might have a chance to win a pennant before he makes the going so tough."

Where is the manager who wouldn't like to have Bush, Myers and Noyes pitching for him; and where, on where can you find a big leaguer who wouldn't spend several thousand dollars for Wallie Schang?

The foundation has been built for another fine baseball team in Philadelphia. Managers and baseball men everywhere believe it is due.

ON THE SCREEN

San Francisco before the earthquake and fire. The interior of "Sailor's Rest." The proprietor, "Hell" Morgan and his daughter. A conniving politician who coveted the queen of "Sailor's Rest." Thus the stage is set when Roger Curwell, a portrait painter, comes upon the scene—and then the story of "Hell" Morgan's girl gets well under way. Harvey put into novel form and Ida May Park prepared for the screen this thrilling tale of love, cunning and adventure that ends in the Presidio, where thousands have fled following the disaster that appalled the world and laid a wondrous city prostrate for a time. No more thrilling or gripping tale of love's struggle for supremacy has ever been screened and Bluebird Photoplays Inc., have made a master work of the presentation that will be exhibited at the Tent on Saturday night with beautiful Dorothy Phillips playing the queen of "Sailor's Rest," for the love of whom Roger Curwell, artist and man of refinement, sunk to a lower strata, only to rise to the level of the girl he loved and bring her on with him to the fullness of life's best ideals. "Hell Morgan's Girl" pictures in gripping scenes the transition of two souls, passing, as it were, in their flight, to eventually join in the happiness of perfect redemption through love.

See it at the Tent tomorrow night.
